ABOUT ME

A passionate developer working with Python and Artificial Intelligence, with a strong interest in cybersecurity. I enjoy exploring complex problems and building intelligent solutions, and I am deeply committed to continuous learning and research in these fields. As a Back-end Developer with front-end and back-end experience in HTML, CSS, Bootstrap, JavaScript, Python, and Django. My primary responsibility is to design, develop, and maintain web applications for clients or internal projects. I collaborate with project managers, designers, and other developers to create high-quality, responsive web applications that meet client needs.
